

## Service Description – Renewable Energy Equipment

---

Over 3 years of development has gone into the design, structure and layout of the EURIECA™ equipment system which is based on industry credible injury scenarios and models of working.

---

### PRIMARY RESPONSE BAG

Designed for technicians to take to the place of work with them, it contains all of the equipment required to effectively assess, diagnose and treat life-threatening injuries.

- PPE
- Major bleeding control
- Airway management
- Pulse oximeter and Oxygen therapy
- Pelvic binder and warming blanket
- Glucose gel and aspirin
- AED
- Burns dressings

### SECONDARY RESPONSE BAG

Designed to add resilience to the primary bag and prepare the casualty for rescue, typically stored on the CTV / SOV.

- Advanced airway management
- Additional oxygen
- Advanced casualty warming blanket
- Traction splint
- Pain relief (Penthrox)
- Blood glucose monitoring

### POWER OUTAGE / POINT OF WORK BAG

Designed for use when a lift is unavailable and technicians need to climb, this kit is lightweight and contains all essential items for an immediate response to an emergency, including an AED.

- Basic First Aid
- Advanced pressure dressing & tourniquet
- Face mask
- Chest seal
- AED
