

Service Description – EURIECA® Medics

We have an extensive network of medics who can support your construction, major components and high risk projects.

All of our EURIECA® medics are experienced health care providers, qualified as offshore medics, have GWO basic safety training, and, of course, their EURIECA® qualifications.

Provision of EURIECA® Medics

Trauma Resus EURIECA® medics are healthcare providers who have a paramedic, military medic or nursing background, and have been rigorously vetted to ensure that they are able to provide the highest standards of care.

They are professionally qualified and highly experienced, having worked in hostile, remote and other pressurised environments.

They are able to provide :-

- A flexible, practical and durable approach to medical challenges
- High quality urgent and emergency treatment of injuries and illnesses
- Psychosocial care
- Hygiene monitoring and advice.

All Trauma Resus Medics will have as a minimum :-

- Enhanced DBS (Disclosure & Barring Service) checked
- Medical Indemnity of £5m
- HSE Offshore Medic qualified
- OEUK (Offshore Energies UK) or OGUK (Oil & Gas UK) offshore medical certificate
- GWO BST (Basic Safety Training) certificate.

Clients may also wish to subscribe to our Telemedicine service, which provides immediate, worldwide, remote medical advice (24 hours a day, 7 days a week, 365 days a year) on urgent medical issues, and gives access to a Consultant Grade Doctor working in Accident and Emergency Medicine.

Contact us for further information on how we can support your projects.
